Please circle the size cabin you would prefer:

10' x 12' (\$6,500) 12' x 12' (\$6,750) 12' x 14' (\$7,000) Other

Describe the typical use the cabin will be used for:

Describe the location where you want the cabin to be built:

How are you planning to enclose the frame?

What is your preferred time frame for completion?

Are you thinking of any other options that we might provide as part of this project? Please check or circle any you are thinking about.

Attached wood/storage shed	Stone & Mortar Woodstove Base
Traditional Floor Joists	8' x 12' Deck w/railing
Roof for 8' x 12' Porch/Deck	Interior Rough finishing
Board and Batten Siding	Roof Installation
Stone Walkways or Stairs	

Your cabin will include: 4 sills, 4 posts, 8 corner braces, 2 tie beams, 2 rafter plate beams, approximately 48 hardwood pegs, 12 or 14 rafters, a 3/4" plywood subfloor, 4 girts and all bracing to hold the frame square until it is pegged and secure. The beams are 8" x 8" white pine or hemlock beams. The Rafters and Girts are 5"X5" beams, and the braces are 3"x5" beams of similar wood.

It includes the community raising, and storage until your foundation is complete and ready,

Delivery is priced at cost for the rental of a delivery truck and fuel. Please call for details about your location to determine the actual cost of delivery. We will make every attempt to keep this cost as low as possible.

I understand my deposit of 50% is needed to secure my order. This deposit is non-refundable once construction begins on the frame.
